**AUSTRALIAN HARMONIZED EXPORT COMMODITY CLASSIFICATION  
(AHECC)  
1 July 2002 replacement pages**

Attached are the replacement pages for the AHECC which become operative on 1 July 2002.

The AHECC is compiled by the ABS and is designed for use by exporters, customs brokers and freight forwarders for the classification of goods when providing export declarations to the Australian Customs Service, and to assist users in the interpretation of export statistics published by the ABS.

The 2002 edition of the AHECC became operative on 1 January 2002. It incorporated extensive changes arising from a review, by the World Customs Organization, of the international Harmonized System 6-digit categories.

Users were advised that the 1 January 2002 edition of the AHECC would be the final version issued in printed form. Future replacement pages to update the classification and explanatory notes, normally issued six monthly, and subsequent new editions would be released electronically, free of charge.

Current copies of the AHECC can be updated by printing the replacement pages and including them in the manual. Classification items affected by the 1 July 2002 changes are indicated by an asterisk \* in the margin.

A completely updated electronic version of the AHECC is available on the ABS website. To access the complete manual, go to the ABS website <[www.abs.gov.au](http://www.abs.gov.au)>, then select Themes, International Trade. Users should check the International Trade theme page for the most recent information relating to the AHECC.

Any queries should be referred to the contact officers listed on page E/19. If you have any difficulties accessing the AHECC on the ABS website, please contact the ABS Classification Manager on (02) 6252 5409 or email <[international.trade@abs.gov.au](mailto:international.trade@abs.gov.au)>.

## **CHAPTER 99 - "Commodities and transactions not included in merchandise trade"**

This chapter includes goods that the United Nations defines as being outside the scope of merchandise trade statistics. Goods recorded in this chapter are known as non-merchandise trade and are not included in Australia's international merchandise export statistics.

Non-merchandise trade includes:

- goods exported after being imported on a temporary basis - ships, boats, floating structures, goods for public exhibition and goods originally imported under Section 162 or 162A of the Customs Act, e.g., racing cars and associated equipment for the Australian Grand Prix, NZ race horses for the Melbourne Cup, paintings for art exhibitions;
- goods exported on a temporary basis and intended to be re-imported;
- goods exported for repair, alteration or renovation and subsequent re-importation;
- goods re-exported from Australia after being imported for repair, alteration or renovation;
- passengers' personal effects for which a Customs entry is required; and
- miscellaneous commodities and transactions not included in merchandise trade including:
  - ships' and aircraft stores not subject to excise or Customs duty being loaded on Australian registered ships and aircraft
  - Australian-owned airlines' and shipping companies' parts and equipment for use in servicing their aircraft or ships overseas
  - exports by the Australian government for Australian representatives abroad
  - exports by the Australian government for the administration of Australian territories.

### **1.5 INSTRUCTIONS FOR COMPLETING AN EXPORT ENTRY**

The reporting of export details to the Australian Customs Service may be done electronically, through the EXIT system, or manually by completing the Export Entry forms, B957 (Nov 01) and B957(a) (Jul 2000). Exporters **must** report all export details **prior** to the goods being loaded on board the ship or aircraft transporting them out of Australia.

#### **EXEMPT GOODS**

The following classes of goods are exempt from Export entry requirements, unless there is any permit required by Customs or other permit issuing authority prior to export:

1. accompanied or unaccompanied personal or household effects of a passenger or crew member of an outgoing ship or aircraft, in reasonable quantities and not to be used in the course of trading outside Australia;
2. goods included in a consignment that is consigned by post, by ship or by aircraft from one person to another, and that has an FOB value not exceeding the current threshold (currently \$2,000).

This exemption **does not apply** to goods that are: dutiable goods where the duty is unpaid, excisable goods where the excise duty has been unpaid and goods for which a claim for drawback of Customs duty, excise duty or sales tax is intended;

3. military goods which are the property of:
  - (a) Australian Defence Forces - any value of military goods which are for use overseas by Australian Defence Forces and which will not be sold or otherwise disposed of outside Australia; and
  - (b) Foreign Defence Forces - any value of military goods which are for use in military exercises approved by the Australian Government and which have not been entered in an import entry;

4. bags of mail (Australia Post or Diplomatic);
5. goods originating in one Australian port or airport moved on an international vessel or aircraft to another Australian port or airport without the intention to export;
6. goods temporarily imported under section 162A or temporarily exported under Australian carnet;
7. ship and aircraft spares for use only on an Australian owned vessel or aircraft; and
8. containers or pallets that are the property of a person carrying on a business in Australia and which are exported on a temporary basis to be re-imported, whether they are empty or loaded.

### **AGGREGATION OF LINES**

Where all the details of a group of transactions within the consignment, other than quantity, value and gross mass, are identical, the transactions may be aggregated to a single line.

### **INSTRUCTIONS FOR COMPLETING EXPORT ENTRY - HEADER SCREEN OR COVER PAGE (FORM B957)**

Each of the following instructions relates to a field on the Export Entry. The numbers shown beside the export entry fields as shown below do not necessarily relate to the item numbers of the fields on an export entry. Copies of manual Export Entry forms are included at the end of this Section.

### **SENDERS REFERENCE**

Enter the reference assigned to the consignment. The reference **must be unique** to the particular consignment and cannot be used for any other consignment. To amend the declaration the reference **must be input exactly** the same as the original.

### **TYPE OF EXPORTER**

There are three recognised types of exporters. They are:

- (N)on-confirming
- (C)onfirming
- (M)ultiline

Confirming exporters and Multiline shippers must be registered as such with the Australian Customs Service to use those facilities.

### **OWNER/AGENT (FOR EXPORT ENTRIES LODGED VIA EXIT ONLY)**

Input "O" if the EXIT user is the owner of the goods to be exported.

Input "A" if the EXIT user is acting as an agent on behalf of the owner for the purpose of lodging export entries.

### **EXCISABLE/CUSTOMABLE**

Customable/Excisable goods are goods which would be subject to Customs or Excise duty if they were to be delivered into home consumption rather than being exported. If the goods are customable/excisable, show "Y" in this field and show the establishment code of the warehouse or excise premise from which the goods were removed in the Excise Establishment Code. If the goods are not customable/excisable goods, show "N" in this field and leave the Excise Establishment Code blank.
